Response to Amendment

This office action is in response to an amendment filed on April 23, 2007.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 11, 14 & 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Rao (U.S. Patent Publication number 2004/0123282).

3. As per claims 1 & 14, Rao discloses an electronic device having one of firmware and software stored in non-volatile memory therein, the device comprising a fault-tolerant update agent employing a block-by-block memory update process, capable of updating one of firmware and software in the electronic device (Page 1, paragraph 0008, lines 1-10, paragraph 0010). Rao also discloses the fault-tolerant update agent is capable of determining at least one last update

memory block in a previous update process during fault tolerant recovery following an interruption in an update process (page 2, paragraph 0010, lines 3-12, Page 3, paragraph 0029).

4. As per claims 11 & 21, Rao discloses that the electronic device may comprise at least one of a plurality of mobile electronic devices, and that the plurality of mobile devices comprises at least one of a mobile cellular phone handset, personal digital assistant, pager, MP3 player, and a digital camera (Page 2, paragraph 0022).

Allowable Subject Matter

5. Claims 3-10, 12, 13, & 15-20 are allowed.

6. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments filed April 23, 2007 have been fully considered but they are not persuasive. As per Applicant(s) arguments pertain to Claims 1 & 14, Rao discloses an electronic device, having firmware and software stored in non-volatile memory, also comprises a fault-tolerant agent employing a block-by-block memory update process, fault-tolerant agent is capable of updating one of the firmware and software in the electronic device (page 2, paragraph 0010, lines 3-12, Page 3, paragraph 0029). With reference to fault-tolerant update agent is capable of determining at least one last update memory block in a previous update process during fault tolerant recovery following an interruption in an update process, Rao teaches (page

2, paragraph 0010, lines 3-12, Page 3, paragraph 0029). Applicants arguments with respect to claims 3-13, & 15-20 are moot since these claims are now allowed.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
